Washington, DC 20554

September 28, 2012

Dear Madam Secretary:

Re:WT Docket No. 12-69

Pursuant to Section 1.1206 of the Commission's

rules, 47 C.F.R., this correspondence constitutes notice of a permissible ex parte presentation in the captioned proceeding. This letter dated September 28, 2012. From Vincent D. McBride with McBride Spectrum Partners, LLC. to the Chairman, Julius Genachowski and the Commissioner's of the Federal Communications Commission. The letter is attached hereto. Please direct any questions to the undersigned.

Julius Genachowski
Chairman Federal Communications Commission
445 12th Street, S.W.
Washington, DC 20554

Dear Chairman Genachowski:

Sometimes we miss the obvious, like looking for eyeglasses on top of our heads. We appreciate all of the efforts the Chairman has been making to remove the regulatory barriers to small business in the wireless industry and know the Chairman will continue its efforts to remove regulatory barriers and address this spectrum crunch. As the Chairman continues to push ahead on innovative spectrum solutions in addition to traditional auctions, including incentive auctions, and continues to leave no stone unturned when it comes to opportunities to refill the mobile spectrum pipeline, I would like to remind the Chairman of the most obvious spectrum that has been sitting dormant now for over four years. This valuable beachfront spectrum in the lower 700 MHz. band has been intended for mobile use. We ask the Chairman to remove this barrier of non-interoperability in the 700 MHz band and free-up this valuable spectrum for mobile broadband use as quickly as the Commission can do so.

Sincerely

Vincent D. MCBRIDE
